Message from the CEO

The word “post-pandemic” is everywhere and in every aspect of the workspace and life. As a leader, it’s been very challenging to reimagine the workplace setting. There are always opportunities and innovative ideas that come with strategic impact and reaction. Over the last year, it has felt like we are always in a catch-up mode for outcomes and speeding forward to get the work done.

Sometimes we need to pause, take a step back, and give the people we work with time to breathe. Our staff and leaders—we all feel and see the stress and trauma of our community members brought on by a lack of mental health care, homelessness, rapidly growing inflation, and much more.

Moving into 2023, CAPI is undertaking a strategic planning process and setting strategic goals for the next 5 years. Our leadership team and board are not making any major changes to our mission, values, and purpose. Rather, we are interested in learning how we can better meet the changing needs of the community as we all navigate through uncertainty.

**Ekta
Prakash** “

The footprint of our work at our culturally specific food shelf is not just about food--it’s about belonging, empowerment, and a reminder that you don’t have to give up your culture.

Message (continued)

CAPI takes pride in being a leader in the immigrant community. Collectively, we speak 18 plus languages, celebrate, and elevate cultural diversity and inclusivity in our work, in our leadership, our team, our programs, our partnerships, and our behavior. We are one of the unique cultural ambassadors in the Twin Cities.

The footprint of our work at our culturally specific food shelf is not just about food--it's about belonging, empowerment, and a reminder that you don't have to give up your culture.

The language and culturally specific services we provide throughout our programs include the important work of elevating the social and economic opportunities of refugees, immigrants, and BIPOC communities.

In 2022, it was an honor to celebrate CAPI's 40th Anniversary. We also celebrated that despite the many challenges faced over the last few years, the CAPI team has thrived and continued to make a meaningful impact.

Last year, CAPI was asked to help resettle and provide services to 250 newly arriving Afghan refugee families coming to Minnesota.

Our Basic Needs team accelerated into high gear and began preparing for the large task at hand. CAPI stood as an ambassador and welcomed many new Afghan evacuees through resettlement services and food support, while also providing food support to Ukrainian refugees. We ramped up our infrastructure and created programming that proved to be ever-evolving based on the needs of the existing and new refugee communities.

Our year-end financial results as of Dec 31st, 2022, were strong and show continued stability, as outlined in the audit results in this report.

The agency served over 12,100 diverse, low-income individuals in the refugee, immigrant, and BIPOC communities. 80% are refugees and immigrants and 81% of participants in CAPI's programs are below the federal poverty guidelines. The impact we are sharing is all possible because of you--our volunteers, institutional funders, partners, and supporters. On behalf of all of us at CAPI, thank you for partnering with us!

Warmly,

Ekta Prakash
CEO, CAPI USA

CAPI's 2022 Impact Summary

CAPI enrolled 518 individuals in MNsure, and 716 enrolled in either SNAP, unemployment benefits, energy assistance, rental assistance or another public benefit.

1,241 persons were vaccinated through 30 vaccinations clinics. A total of 81 individuals (largely seniors) participated in group mental health programming. 33% of these participants self-reported reduced trauma symptoms following the 2-week program.

60 Hmong seniors achieved at least 1 independent living goal and 50 Hmong adult caregivers indicated that they had acquired new skills and/or accessed assistance services.

CAPI connected 102 families with emergency housing financial assistance through Rent Help and Project Hope. 25 of the 41 families who received intensive case management were provided with one-time rental subsidies designed to prevent eviction or identify emergency housing for avoiding homelessness.

CAPI assisted 467 individuals through job and training programming, financial and homeownership services, and free tax services.

72 participants completed 8-hour HomeStretch homebuyer workshops; 39 received homebuyer financial wellness or homebuyer counseling with 10 purchasing homes. Staff worked with 38 individuals to complete a family budget, 35 increased their credit scores, and 77 clients completed financial education classes.

Afghan Resettlement Program

As the world watched the horrific events unfold in Afghanistan in 2021, CAPI began discussing what it could mean for the organization and the ways that we should prepare to step in to assist. Due to the lack of funding and various travel bans over the last several years, many resettlement organizations had to shutter their doors, leaving just a handful of support services ill-equipped to take on the influx of families and individuals seeking assistance.

In January 2022, CAPI began working with the Minnesota Department of Health to resettle 250 Afghan families into the Twin Cities through our Afghan Resettlement Program (ARP). Several of the staff members hired to help the newly arriving community, were newly arrived themselves.

Zhara, one of CAPI's Afghan Housing Stability Navigators, shared with us, "CAPI means 'opportunity' to me. I started as an Afghan Case Manager and helped Afghan new arrivals, and I was one of them." Our team working on the ground picked up individuals and families from the airport and transported them to hotels that had been established as temporary housing sites. "Whenever I met with the families, they were really concerned about many different things because they were new here. They were concerned whether they could pay for their rent, whether they can get a job or not, and also some of them, because of their language barrier, it was hard for them to even think about how to communicate with their neighbors or their landlord."

Sami, another member of our Afghan Housing Stability team said, "As an immigrant going to a new country or new home, you can't easily trust just anybody. There's a lot of pressure and sometimes you have been traumatized. I try to build trust in the beginning between the families and myself. After that, I want to learn what the families need."

CAPI's ARP team has helped families transition into stable housing, find employment, get children enrolled in school, and find meaningful community.

"The first thing that I give them is hope...hope that you can do it!"

CAPI'S 40TH ANNIVERSARY

In 2022, CAPI excitedly celebrated 40 years of walking alongside our refugee and immigrant neighbors. From a small food shelf in 1982, CAPI has grown into a multi-site social services organization that serves over 12,000 individuals annually.

Around 250 of our old and new friends joined us to celebrate at Quincy Hall on September 29, 2022. We enjoyed live music, good food, a silent auction, and, most importantly, we just enjoyed gathering with the people who support CAPI's work and our participants.

We were delighted to have Chenue Her, America's first male Hmong news anchor and anchor of 'Good Morning Iowa' join us as emcee for the evening.

Bo Thao-Urabe, Founder and President of Seed.Grow.Bloom; Michelle Rivero, the director of the City of Minneapolis Office of Immigrant and Refugee Affairs; and Sook Jin Ong the Director of Diversity, Equity, and Inclusion at

photos by Carina Lofgren

Give & Grow (continued)

Second Harvest Heartland, comprised a panel that spoke about CAPI's relationships in the community, the environment in which organizations like CAPI came to be, and why it is so important for organizations like CAPI to exist.

The evening reflected the diverse communities that CAPI serves, told the story of the organization, and gave attendees an opportunity to connect and celebrate after a few years of pausing on large in-person gatherings.

The landscape of the work we do is changing and CAPI has grown and adapted to meet the needs of the communities around us in innovative and participant-centered ways. As we seek to expand our services and location in Brooklyn Center, we are continually thankful for those that invest in us and seek the good of their neighbors in the Twin Cities.

We look forward to our next event on September 28, 2023, and hope to see you there!

Hometown Heroes

In August of 2022, CAPI and 4 other nonprofits were honored to be the recipients of the Hometown Hero Award by Major League Soccer, Minnesota United FC, and Black Players for Change.

Awards were given to organizations making a positive change in the areas of Education, Mental Health, Food Security (CAPI's award), and Social Justice. CAPI staff were invited to a showcase in downtown St. Paul attended by several players from MNUFC, Gov. Walz, and other MLS representatives.

CAPI's CEO, Ekta Prakash, attended the MLS All-Star game where she and the leaders from T.O.U.C.H. (Teaching Our Urban Communities Hope), MIWRC (Minnesota Indian Women's Resource Center), Walker West Music Academy, and The Sanneh Foundation, were all celebrated for the impactful work taking place in the Twin Cities. Players from Minnesota United stopped by CAPI and met with staff and our youth leadership participants.

“CAPI’s entire team is thrilled to be named as the 'Hometown Hero,' Prakash said. “It’s a great honor and this recognition is an outcome of the great work CAPI does in the community; and it amplifies that our work is making a difference with a positive impact in the lives of refugees, immigrants, and BIPOC communities.”

HOUSING STABILITY

In 2022 we assisted **41** households through paying down payments, back rent, and identifying root causes of their instability

"I found CAPI during COVID through a friend and needed food assistance. I wasn't sure if I would qualify for food since I wasn't a client, but they welcomed me and walked me through the process to get food. I was happy that the staff was Hmong, so I felt more comfortable communicating. I like getting the food in the summer when they have it outside. It helps me save money because they give a lot of food. I also got my COVID vaccine at CAPI and got the majority of my children vaccinated through CAPI. They translated for me and helped me with paperwork. I feel safe with the vaccine and for my children. CAPI helped me a lot and I'm thankful there is CAPI to help people like me."

Zang Yang, CAPI Participant

COMMUNITY HEALTH + BENEFITS ENROLLMENT

Holiday Events:

CAPI's Community Health team hosted a Winter Festival with our neighbors at Cross of Glory Lutheran Church. Community partners joined us to meet with community members, distribute books, provide COVID and flu vaccinations, along with entertainment for the kids including a face painter.

CAPI's Financial Services team coordinated a Toys for Tots event at our office in Brooklyn Center, the first since having to pause the program due to COVID. We had 69 families participate, providing toys to 180 kids in our community.

FINANCIAL & HOMEOWNERSHIP SERVICES

Magret Kabba is a mother of four in a single-parent household. While working two jobs, Magret made the time to educate herself and obtain stable housing for her family.

Magret came to CAPI seeking assistance in our Financial Services department after visiting the food shelf, where she saw the opportunity to acquire more financial education, especially surrounding her credit and savings. She came with a lot of questions and doubted her ability to find financial stability or purchase a home.

After working with the Financial Services team, Magret was able to achieve her housing goal by standing by her action plans and sticking to her set budgets, not only by doing but believing she could. She said she heard a lot of, "You need to have no debt/You need to have this much in savings/You need to have \$20,000 down to own a home." But she barreled through those obstacles and is now a homeowner in the city of Brooklyn Park. Magret's oldest son said, "Thank you for helping my mom. I finally have my own room!"

MINNESOTA FAMILY INVESTMENT PROGRAM (MFIP)

In 2022 we assisted **370** individuals

MFIP takes a person-centered approach to case management, providing:

2 months support after
Hennepin County exit

Referral to
childcare, domestic
violence support, &
family stabilization

work readiness,
career training, job
placement and more

MFIP provides support to Hennepin County adults with dependent children to meet their basic needs while helping parents move to financial stability through employment. For many families, MFIP is their sole source of income, and getting them employed is a huge step toward self-sufficiency.

CAREER PATHWAYS

Career Pathways greatly expanded by adding Property Maintenance in partnership with Century College and Robbinsdale Adult Education; Green Energy Training in partnership with the Center for Energy and Environment; a new Internationally Trained Healthcare Professionals program; and African Immigrant Community job placement and training services.

Graduation

Civic Engagement & Public Policy

In 2022, CAPI became the convener of the Asian Minnesota Alliance for Justice (AMAJ) coalition, a coordinated network that shares a common purpose of ending racism and xenophobia in order to create a just, free, and peaceful world.

The Civic Engagement Team also launched the "Twin Cities Youth Leadership Board" which brought together youth ages 14-18 years old, aimed to direct more energy toward base building with youth than in years past. The purpose of the group was to develop leadership and organizational skills, first by understanding their passions and their identities, then by creating a product that creates awareness of their particular passion. The participants in 2022 focused on the issues of teen substance abuse and the importance of voting.

CAPI also hosted the 15th annual Twin Cities World Refugee Day. The event took on a hybrid format again with a virtual production showcasing refugee artists in the Twin Cities. A watch party took place at the Brooklyn Center Community Center with a live performance from Kalpulli KetzalCoatlucue. The event will return to an in-person celebration on June 11, 2023 at Centennial Park in Brooklyn Center!

Refugee Services

AFGHAN HOUSING STABILITY PROGRAM

81 families have been helped, meaning a total of 451 individuals

CAPI assisted in the emergency resettlement case management of approximately 250 Afghan households arriving in Minnesota after the U.S. evacuation of Afghanistan in September 2021. In all, CAPI provided just over 450 individuals with full resettlement services throughout the first 6 months of 2022.

81 families in unstable and unsustainable housing situations were provided case management services and 100% received rental subsidies for 3-month increments to further help stabilize their living situation.

CAPI also focused efforts on culturally relevant food assistance and community building for our new neighbors. With the help of the Afghan Cultural Society, Building Blocks, and the Ria Patel Foundation, we were able to provide gatherings for Afghan women and children, host food distributions, and with a generous donation from Holy Land, provided 160 Iftar meals to the 23 families who remained in hotel housing during the holiday of Ramadan.

In 2022, CAPI received an Office of Refugee Resettlement grant to provide Afghan Career Coaching and Counseling to be launched in 2023. CAPI is also currently exploring programming options for Ukrainian refugee support.
